生徒達とバルツァーはまだ戦争の中継から程遠い立ち位置で、アイスを食べたり羊と戯れたり、現場の厳格さと険悪に気づいていますが、ようやく本格的なドンパチが始まりました。

そんなキナ臭い展開の合間にも「軍隊が列車の乗り換えで大渋滞」

「温泉地で密談」「替装の作法」あたりの、

19世紀の定番イベントを織り込んで楽しかったです。

巻末の特別編が載せられて一安心。

実は当初の「軍靴のバルツァー」は、

こういう小話とか日常話をゆるゆる積み重ねる作品になる予定でした。

好意画柄の末、今のような形に発展し大きなストーリーの流れを描けて嬉しいのですが、新人目にはこういう小話を考えるのも好きなので、

本編の展開とはまた別に、

この手の「軍人のすっとこ日常話」をエピソードも積みたいですね。

The story

Eine Geschichte

It's the 19th century, during the age of imperialism. The military power Weissen has appointed Major Balzer on a special assignment as a military instructor at an academy in their allied country, Baselland. His mission is to push a militarist agenda on Baselland by reforming their inferior military. However, his efforts only serve to confuse the habitually peaceful instructors and students...

19

Meanwhile, Balzer meets Liebknecht, who was rumored to have committed suicide after a failed coup during their military academy days, once again. Liebknecht had managed to gain the trust of Baselland's crown prince and become his close associate. In order to overthrow the dissenting second prince, he instigates an armed demonstration, which Balzer manages to quell. However, a greater threat soon appears as Liebknecht, with the Erstreich Empire at his back, unfolds a new scheme to involve more countries into a maelstrom of war!

This is my home. It takes about half an hour to walk home on foot from the academy. It is a bakery located in the city.

We're a family of 8, altogether. In addition to my grandfather and parents, I have 4 siblings, 2 older, 2 younger.

In other words, I have a very ordinary family.

I have
no plans
whatsoever
on landing
a career as
a soldier,
in the first
place!

This is a
realistic
dream I
can accomplish... It's
my life's
plan.

I'll serve 3 years
in the Military
Academy and then,
after graduating
will have another
12 years of active
duty. Then when
I've just getting to
30, I'll be able to
transfer to some

rest of my days
in peace.

Veterans
with over

I only

By long as
our country

this bet!

Of course,
I understand
the risks of
entering any
branch of the
military
regiment.

But even
so, the
risk of

early is
minimal.

Plus, I don't
think the
possibility
of war is
very high
after 100
long years
of peace.

At 1 p.m. on the 18th of September, the Prime Minister and his cabinet decided to go to war.

At 8 p.m. on the 2nd of September, the soldiers of the Chief of Staff mobilized troops in accordance to the plan formulated during the time of peace.

Companies were moved to each division to prepare for mobilization.

At 8 p.m. on the 2nd of September, the soldiers of the Chief of Staff mobilized troops in accordance to the plan formulated during the time of peace.

BY 30th OF the 4th of September, munitions were ordered to increase production to war time capacity

By 10am on the 1st of September, the office of staff and the Railway Ministry set up the Railway War Operations Headquarters and began running the trains according to the war time schedule.

AND THE DAY AFTER WAS THE 7TH OF SEPTEMBER, THE DAY THAT YOUR REGIMENT MET WITH AN EXCELLENT TUN CHIEF OF STAFF.

GARRISON!

THE ARMY'S
OBJECTIVE IS
TO REACH THEIR
TROOPS AND
SUPPLIES, AS
WELL AS SECURE
THE PORT'S
FACILITIES.

WE MUST
DEFEND
THE PORT
AT ALL
COSTS!!

WAIT!

WE SHOULD LEAVE THE FORT TO THE GARRISON THERE, WHILE WE STRENGTHEN OUR OWN DEFENSES HERE!

THE OBJECTIVE OF THE ADVANCE PLATOON IS TO SECURE A BRANCH-HEAD... THE OPERATION WON'T BE LIMITED JUST TO THE FORT, BUT TO ALL ENEMY FORCES WITHIN A CONSIDERABLE RADIUS INCLUDING THE ISLAND.

WOULDN'T YOU LEAVE THE GARRISON OF THE COASTAL BARRICADE JUST HERE? THE ISLAND HAS NO STRONG POINTS FORWARD AT THIS MOMENT. FOR THE LAND-LOCKED OPERATION!

DEFENSELESS.

IF WE MOVE NOW, WE WILL BE ABLE TO STRIKE THE ENEMY AND TRY TO MAKE AN ATTEMPT TO TAKE THAT STRONG POINT. IT WILL BE A DIFFICULT TASK.

WE CAN'T LET THE ENEMY RECOVER US!

I UNDERSTAND YOUR CONCERN FOR THE COASTAL BARRICADE, BUT KNOWLEDGE OF THE FORT RIGHT DO US WELL GOOD.

YOU MUSTN'T LET YOUR BRANCHES CLOSE YOUR JAW-OPEN.

SAVED, WILL YOU CURRENTLY THE STAFF OFFICER FOR THE LAND-LOCKED OPERATION, GENERAL?

Abstract

THE UNIVERSITY OF CHICAGO

One-to-One

That Texas high-speed rail, according to law, must be of "any" of the many kinds in the U.S. is, in addition to the fact, one of the reasons why Texas continues to lag behind states of "limited" rail — e.g., California — in developing a network of lines that is better than that

In addition to important figures from Madison, many scholars from other countries frequent the site to guide and to become a new location for university research.

There are many clearly informal rules for authors, such as "Do everything allowed" and "Punish writing time - 100 minutes" (part of the writing time limit). These rules are often not written down, but are passed on from one generation of authors to the next.

Trouble with logistics on the transport railway the Weissen Land Forces are so proud of?

The Military Headquarters of the Weissen Land Forces is constantly researching new ways of transporting troops during peace times. They claim that they make all the necessary preparations, but this time, the confusion with transfers at Weiseldorf was a painful mistake. But as expected of Weissen's largest Southern city, with a population of over 100 000, it had no trouble supplying food and water or sewage services. Moreover while the soldiers were on standby, they were provided with ice cream, courtesy of the army's freezing technologies, thus by avoiding any uprisings and lowering morale. As a side note, the Prince of Baselland also enjoyed the ice cream.

The first step in the process is to identify the problem. This involves gathering information about the situation and the people involved. Once the problem is identified, the next step is to analyze it. This involves breaking the problem down into its components and understanding how they are related. The third step is to develop a plan. This involves deciding on the best way to solve the problem and the steps that need to be taken. The fourth step is to implement the plan. This involves putting the plan into action and making any necessary adjustments. The final step is to evaluate the results. This involves assessing the effectiveness of the solution and determining if any further action is needed.

Abstract The purpose of this study was to determine the effect of a 12-week training program on the physical fitness of 10-year-old children. The study was conducted in a primary school in the city of Bursa, Turkey. The study group consisted of 20 children (10 boys and 10 girls) who were randomly selected from the 10-year-old children in the school. The children were divided into two groups: a control group and an experimental group. The control group did not participate in any physical activity program, while the experimental group participated in a 12-week training program. The physical fitness of the children was measured at the beginning and at the end of the 12-week period. The measurements included maximum heart rate, maximum oxygen consumption, maximum power, and maximum speed. The results of the study showed that the experimental group had significantly higher values for all four measurements at the end of the 12-week period compared to the control group. The results suggest that a 12-week training program can improve the physical fitness of 10-year-old children.

The Drindl, a traditional dress

The *drum*, a traditional dress, is currently in a quiet boom. Originally, it was a garment worn by peasant women working in the fields, but recently it has swept across the cities in new, ornate designs made with quality fabrics. Now that it's being sold as a beautiful dress, it has even become popular with the upper classes. Please pay attention to where the ribbon is tied, since it indicates their marital status: in the centre-front means she is single, to the right-front, means she's married and to the back means she's a widow.
